

# BETAGRO INTERNATIONAL

Serving **BETTER FOOD** to the world

A leading integrated food company from Thailand, delivering high-quality, safe, and sustainable food products to global markets through fully integrated operations from sourcing to distribution

## Our Expertise

We provide a wide range of food solutions, including processed chicken, ready-to-eat products, and customized offerings to meet diverse consumer needs.

In addition to our manufacturing capabilities, our Trading Office works closely with trusted partners to help customers source a broader range of food products beyond our own portfolio.

## Where to Find Us

Available across convenience store, modern trade, food service, and online channels in Singapore.

Scan to explore our product range

## Our Brands

Our range of brands includes "S-Pure", "Itoham" and "Betagro", distributed through a wide network of partners to serve customers

## Cage-Free Eggs

Our modern cage-free egg facility reflects our commitment to animal welfare, sustainability, and food safety. As a Certified Humane® farm, we raise chickens in a stress-free environment that supports their natural behaviours—because happy chickens produce better eggs. At N&N Agriculture, we set the standard for ethical farming in Singapore while delivering safe, nutritious, and high-quality eggs.

### Egg Story Pasteurized Fresh Eggs

- Singapore's **1st and Only** pasteurized fresh eggs
- **Pasteurized to kill Salmonella and Bird Flu Virus** if present inside and outside the eggs

### PLE and HBE

Our new egg processing plant highlights N&N Agriculture's leadership in the egg industry. It is equipped with two advanced systems: a liquid egg pasteuriser with a capacity of up to 4,000 litres per hour, and a high-efficiency hard-boiled egg machine capable of processing up to 20,000 eggs per hour. With SANOVO's trusted technology, we ensure consistent quality, strong food safety, and reliable performance—reinforcing our commitment to providing safe, high-quality egg products in Singapore.

### Egg Grader

Our upgraded egg packing facility is equipped with SANOVO OptiGrader 707 and Ardena 170, enhanced by Vision AI for precise, high-speed grading and quality control. This advanced technology ensures consistent, safe, and high-quality eggs—strengthening N&N Agriculture's leadership in Singapore's egg industry.
